

SAOS 2022

The International Symposium on Atmospheric and Oceanic Sciences (SAOS 2022) will be held in Xi'an, China, during May 30-June 1, 2022. The aim of SAOS is to provide a stage for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Atmospheric Sciences, Climatology, Dynamic Meteorology, Eco- hydrology, Hydrology, Limnology,

Marine Science and other related topics. SAOS 2022 will be a valuable and important platform for inspiring international and interdisciplinary exchange at the forefront of Atmospheric and Oceanic Sciences.

Xi'an, is the capital of Shaanxi province, located in central-northwest China, records the great changes of the country just like a living history book. Called Chang'an (meaning the eternal city) in ancient times, it is one of the birthplaces of the ancient Chinese civilization in the Yellow River Basin area. As the eastern terminal of the Silk Road and the site of the famous Terracotta Warriors of the Qin Dynasty, the city has won a reputation all over the world. More than 3,000 years of history including over 1,100 years as the capital city of ancient dynasties, have endowed the city with an amazing historical heritage. Visitors marvel at the numerous historical sites and cultural relics in and around the city. Read more about History. Known as the leading city of China's Western Development Drive Program since 1990s, Xi'an is an important economic, cultural, industrial and educational center of the central-northwest region, providing visitors with modern and convenient facilities.
